# RICH WIDOW IS ARRESTED FOR MURDER

BORDER CITIES IN RUHR VALLEY ARE NOW TAKEN OVER

ELBERFELD AND BRIDGE-HEAD NEAR COBLENZ ABSORBED IN NEW ERA.

TROOPS ON MOVE

Britain's Outline of Answer to Germany Has No Effect on France.

(By Associated Press)

Berlin — French troops have occupied the big industrial city of Elberfeld on the edge of the Ruhr region, according to advices from the Ruhr today.

*Not in the City?*

Berlin — Reports that the big, industrial city of Iserlohn on the edge of the Ruhr region had been occupied by French troops reached Berlin from the Ruhr this afternoon. The reports were given credence here for several hours but this afternoon was received that Elberfeld had not actually been taken possession of. French patrols advancing to the outskirts of the city, but withdrawing shortly afterward.

LIMBURG-NEAR COBLENZ TAKEN OVER BY FRENCH

Duesseldorf — The town of Limburg, just beyond the Coblenz bridgehead which the Americans formerly held, was occupied by French troops yesterday as a permanent occupation town.

Barmen, the Elberfeld manufacturing district, also was occupied by a detachment of French troops. Several of the Barmen city officials were arrested, after which the French withdrew.

The big industrial towns of Elberfeld and Barmen are located close together on the immediate edge of the Ruhr region, east of Duesseldorf. They are virtually surrounded by occupied territory but have not been regarded as strictly within the area of occupation.

BERLIN PLEASED AT BALDWIN STATEMENT

Berlin — Premier Baldwin's statement in the British house of commons is generally received with satisfaction by the Berlin newspapers. While they had expected that nothing in the nature of a breach with France would be announced, they express the opinion that such a breach has not occurred as Germany's position in such an event would become worse.

It is considered that the critical period will be reached, when the British reply to the German memorandum is submitted to the allies.

DORMITORY PLAN FOR U. OF W. O. K.

Governor Signs Finance Committee Bill to Enlist Capital.

Madison, Wis.—A dormitory construction program for the University of Wisconsin was assured today with Governor Blaine's signature to a finance committee bill authorizing the university board of regents to establish private capital in the enterprise.

Funds are said to be available for the erection of the first dormitory building to cost \$500,000 and accommodate 500 students.

Under provisions of the bill, the regents are empowered to lease land to a private non-profit corporation organized for the construction of dormitories at the University. An original fund to secure this corporation would be set up by the state legislature.

After construction of the first building, rentals would be used to retire the university's debt.

Thereafter dormitories would be built in succession as funds became available.

This plan of financing a university building program has been held valid by the attorney general's department.

Burke says he is "broke."

The governor interposed with his remarks of censure when some one attending the hearing made mention of a press account dealing with the bill.

*Last Stretch of*

65 New Lights

*Put in Service*

Janesville has even more reason to be proud of its ornamental lighting system with the completion of the 65 light addition authorized last winter by the old city council.

William R. Schmidley, manager of the Janesville Electric company, said the last work of installing the lights on Main and Western avenues on Jackson street was completed Thursday and turned on for the first time Thursday night.

The 65 lights cost the city about \$2,300.

*FRIDAY THE 13TH IS NO HOODOO HERE*

Friday was the 13th of July, and according to the sages serious calamities are likely to fall upon man on this day. No serious accidents were reported, the fire department force was restless from inactivity, and the police reported all quiet. For those who are not superstitious it is not to be noticed, but causes worry to those who are.

*AUTEN IS EXPECTED IN CITY SATURDAY*

Although Auten would not be expected from him Tuesday or Wednesday, J. E. Auten, Milwaukee, has not notified President J. K. Jensen as to whether he will accept the city mayoralty of Janesville. Mr. Auten is expected to visit in the city Saturday.

The case was held open.

**WITH THE FARMERS**  
Farm Bureau Official Information

**TOBACCO ACREAGE  
TOTALS 44,400**

Farmers Reduce on Potato  
Acreage. Corn Same as  
Last Year.

**MADISON—**A reduction of 17 per  
cent in the acreage of potatoes and  
an increase of 11 per cent in the to-  
bacco acreage of the state, figure  
in the daily report of the State and Fed-  
eral Crop and Livestock reporting  
Service at Madison.

It is estimated that the potato acreage in Wisconsin this year is 372 thousand acres compared to 328 thousand acres last year and 315 thousand acres in 1921. This is the smallest acreage that Wisconsin has planted since 1904. Farmers explained the reduction by a series of unprofitable potato years, by low prices in 1920 and 1922, and by short acreage in 1921. The reduction is greatest in the northwestern part of the state—where the acreage this year represents 75 per cent of last year's acreage.

The condition of potatoes in Wisconsin on July 1 is estimated by correspondents to be 88 per cent of normal. The condition on July 1 last year was 90 per cent, the same as the average of the July 1 condition for the past five years. Planting in most of the potato sections was somewhat later than usual, and the crop on July 1 was, therefore, lacking some time in seasonal growth. United States—The potato acreage in the entire United States is estimated to be 8,892,000 acres, or 90 per cent of last year's acreage. The condition of potatoes in the United States is placed at 86.4 per cent of normal, which is 1 per cent below the July 1 condition last year and the July 1 average condition on the 10-year average condition.

**Tobacco Acreage**

**Tobacco—**The tobacco acreage in Wisconsin this year is estimated to be 44,400 acres. This is an increase of 11 per cent over the acreage last year but 3,000 acres less than in 1921 and 6,000 less than in 1920.

Condition on July 1 was 80 per cent of normal as compared to 84 per cent last year and 91 per cent on July 1 two years ago. The lower condition this year is caused by extremely hot and dry weather during the third week in June, which either delayed transplanting or prevented young plants from making a start.

**Corn Crop Good**

**Corn—**The corn acreage of the state is estimated to be 2,200,000 acres, the same as last year. The condition of corn on July 1 was the best of all the leading crops in Wisconsin, having suffered less from the dry weather. Warm, wet weather during the third week in June, which was not as good as a year ago. There were some late planted fields which lacked in seasonal growth, but correspondents estimated the condition to be 90 per cent, as compared to 89 per cent last year and 100 per cent average. In 1920, the production is forecasted to be 91 million bushels as compared to a forecast of 89 million bushels on July 1 last year.

**Beans—**Farmers in Central Wis-

consin have added 80 per cent to last year's acreage of beans. The acreage this year is estimated to be 24,000 as compared to 8,000 last year. Condition on July 1 is estimated to be 86 per cent, which is 3 per cent below the condition on July 1 last year.

**SILENCE BILL SIGNED.**

**MADISON—**The state department of agriculture is given power to make tests necessary to keep tested colo- ries free from tubercular colo- ries under provisions of the Lichee bill signed by Gov. Baldwin Thursday. This bill also increases the size of the live- stock sanitary board to seven mem- bers.

**NORDMAN PROTESTS  
PRESENT TAX METHOD**

**MADISON—**Monopoly of natural re-  
sources is mainly responsible for the  
low purchasing power of the con-  
sumer, Edward Nordman, state com-  
missioner of markets, declared here  
in speaking before a conference of  
farmers and business men, called to  
discuss problems of marketing.

"Special privileges and monopolies  
give individuals power to ex-  
tract huge unearned incomes, produc-  
tion of our natural resources," Mr.  
Nordman said, proposing as a remedy  
that a system of taxation be  
adopted which will shift taxes from  
industry to unearned incomes. This  
he asserted would "redistribute  
the national resources from the field of mo-  
nopolies open up opportunities and  
increase the purchasing power of the  
masses, thus establishing a proper  
balance in our economic relationship,  
which is the prime requisite of pros-  
perity and good markets."

"However, it should be borne in  
mind that good markets are impos-  
sible unless the demand for com-  
modities equals or exceeds the supply."

"It would seem that students and  
investigators of the marketing prob-  
lem would have to concentrate their energies on a self-evident  
fact of this kind and would have used it as the basis of proposed ram-  
bles for adverse economic conditions.

On the contrary, however, the  
whole trend of the work in this field  
has been to find means of unloading  
commodities onto the consumer re-  
gardless of whether the latter had  
any desire to purchase them or not.

The result has been that we find our-  
selves producing more than we can  
possibly market under present eco-  
nomic conditions and are forced  
periodically to shut down factories or,  
as in the case of agriculture, continue  
producing at ruinously low prices.

When, however, it is proposed to  
make these proposals, it must be  
given its due weight in the general  
scheme for better marketing condi-  
tions the proposal is either ridiculed  
or entirely ignored."

**FOREIGN BEES ARE  
BARRED FROM MAILED**

No adult honey bees can be import-  
ed from any country but Canada, ac-  
cording to the order received by  
Postmaster J. J. Cunningham. This  
is to safeguard the honey industry  
here, as it has been found that all  
European and Asiatic bees have a  
disease called the Isle of Wight dis-  
ease.

**FRUIT GROWERS TO  
SELL GRADED STOCK**

Fruit growers of Rock county will  
re-organize a marketing association  
for the sale of graded apples and  
fruit through the stores in the vil-  
lages and cities.

Forty members of the Rock county  
spray rings attended the meeting  
held in the court house Thursday  
and backed the co-operative sys-  
tem calling for the labeling of fruit.

Apples will be brought to Janesville  
to be graded by the selling agent  
and the first grade fruit sold to the  
merchants and the culled apples  
made into cider.

A committee composed of James  
Roherty, William Fox and Clifford  
Austin were named to take charge  
of the marketing policies.

"Thousands of bushels of Rock  
county grown apples, produced on  
sprayed trees will be offered on the  
local markets. A selling agent will  
deal with the merchants in the vari-  
ous cities.

**500 ATTEND CONCERT  
AT ROCK CO. FARM**

There were 500 people at the band  
concert program given by the Farm-  
Bureau at the Rock county Fair  
on Thursday evening. The concert  
was given by the Milton band.

George Hiltz, president of the Wis-  
consin Farm Bureau, made the main  
address, urging farmers to remain  
in the Bureau for organized effort  
to better agriculture. He told of  
the conference held in Milwaukee  
between the agricultural and com-  
mercial interests of the state.

Charles Marquette has charge of  
the arrangements. A series of concerts  
will be given at the county fair by  
the Bureau.

## Beware the Cracks in Your Power Line

**Now, you'd never dream of driving farther than the  
nearest repair shop, if the smallest flaw developed  
in your running gear!**

**Yet perhaps you've never considered the fact that motor  
fuel is part of your power line. That there is just as  
much need for full, unbroken thrust of explosion above  
the piston as there is for rigid, slackless transmission of  
the power to the wheels.**

**Poor fuel can't give it. Its chemical make-up is full of  
gaps. The rifts and dead spots in its flame progression

# HALDEMAN NAMED TO DOUGLAS POST

Bergman Reaches Camp as It  
Needs Readiness to Receive  
State Guard Companies.

**Camp Douglas.**—Capt. C. N. Halde-  
man, formerly located at Janesville, will  
have charge of cavalry instruction at the Wisconsin National Guard encampment here this summer. It was  
learned Thursday. Capt. Halde-  
man has just arrived in camp.

A. E. Schermann, physical instruc-  
tor of the Janesville Y. M. C. A., who  
will be assistant sports director for  
the next 10 days, arrived here  
Thursday. He was accompanied by  
Marshall Hyde, Janesville. They  
were guests Thursday night of Col.  
Charles R. Williams, camp com-  
mandant and state quartermaster, at officers' mess.

A baseball team composed of cit-  
izens of Camp Douglas has agreed  
to play the Janesville Tank Corps  
here Sunday. They want revenge for  
defeat last year.

Sava for a few officers' tents and  
quarters, the camp has not yet as-  
sumed the aspects of the great tent-  
ed city that it will appear after Sat-  
urday. The first contingent of state  
soldiers is expected to arrive Friday,  
the 12th of July of Milwaukee  
men, an outfit that suffered great loss  
in the World war.

A large detachment of men is at  
work preparing the grounds and get-  
ting them in condition for reception  
of the initial outfit of citizen sol-  
diers. Truck loads of tents, poles  
and cots are being spotted awaiting  
word for erection Friday and Satur-  
day. By Sunday the camp will be in  
full dress, awakening recollec-  
tions of the day the boys went off to  
train camp in 1917.

Camp Douglas is ideally situated  
for summer training. No matter how  
hot the day, the night is always cool,  
owing to the altitude. It is sur-  
rounded by scenic bluffs formed by  
ancient glaciers. Spruce and cedar  
abound.

## BORDER CITIES IN RUHR VALLEY ARE NOW TAKEN OVER

(Continued from Page 1)  
completing the draft of the British  
reply to the German reparations note  
which is to be submitted to the alli-  
ances.

The document will be accompanied by  
a covering note detailing for the  
benefit of the allies, the British gov-  
ernment's views on the whole ques-  
tion and this, it is believed, will take  
more time for preparation than the  
reply itself which, according to some  
reports virtually has already been  
drawn.

Providing a definite official state-  
ment respecting communication to  
the United States government of a  
draft of the reply, there is a general  
supposition that this step will be  
taken. The Times today says: "The  
United States government has not been  
able to take any action at present  
in the matter of the proposed draft  
and has waited and it should be officially informed of a de-  
cision that modest, as it may be in  
appearance, is momentous in its pos-  
sible consequences."

The Daily Mail reporting the like-  
hood that a draft will be handed to  
the American Embassy as a matter  
of courtesy, adds:

"The recent points to Thom-  
as W. Lamont of the Morgan firm  
who is understood to be in London  
as the possible American representa-  
tive on international commission to  
estimate Germany's paying capacity."

**PARIS THINKS AN  
AGREEMENT MAY FOLLOW**

(Continued from page 1)

Paris' Prime Minister Baldwin's  
reparation statement was generally  
commented upon in French official  
circles today as a carefully worded  
document which might lead to an  
agreement, this being dependent  
upon the nature of the note it an-  
nounced as forthcoming for the  
French government's perusal and  
use.

Both in foreign affairs circles, at  
the conclusion of a meeting of a  
cabinet council, and at the ministry  
of the interior, the general tone was  
optimistic.

## 800 Fans Heard Fight Returns, Radio Concert

Eight hundred fight fans, a portion  
of them women, gathered at the  
Bluff street side of the Gazette  
building Thursday night and  
ended to the round by round returns  
of the Firpo-Willard bout direct  
from the ringside.

It was a quiet crowd and evidently  
largely in favor of Firpo. There  
was little response to Willard's ef-  
forts, not even in accord with the  
gang at the fight when it yelled,  
"Hoorah, Jess." When Firpo started  
to get his work in at the sixth  
round he showed his enthusiasm.  
The recruit's enthusiasm pleased  
them when the clash of the  
knockout was megaphoned at 8:20 p.m.

The crowd began gathering at 7 p.m., selecting choice seats on the  
fire escape of the Myers theater.  
Some boys and men climbed to the  
roof of that building for a better  
portion of vantage. The people  
on the street, on the corner, Janes-  
ville, were over onto Milwaukee street,  
and for 100 feet toward Court street.  
A radio concert from Chicago and  
Memphis, Tenn., put on through co-  
operation of the Wisconsin Electric  
Sales company and the Gazette radio  
department, kept the big crowd in  
good humor before the fight and  
between rounds. The novelty made  
a hit.

This is only one of the ways in  
which the Gazette is an unusual  
newspaper.

**RECRUITING WITH RADIO**

Major M. S. Corry, Adj't 5th Army  
Corps at Fort Thomas, Ky., wanted  
to attract a crowd to his recruiting  
automobile campaign so he installed a  
radio receiver and loud speaker.  
This radio equipped automobile traveled  
1,000 miles through Indiana,  
Ohio and Kentucky. The recruiting  
trip took three months. The young man  
spent a month's training out-of-doors  
and healthful surroundings.

## PENALTY AMOUNT IN DISCUSSION

Sum to be Withheld on J. P.  
Cullen Contract Before  
School Board.

Several matters of importance are  
to be settled at the special meeting  
of the board of education at 7:30 P.M.  
Wednesday. Cleophas Beloit, colliding on the Emerald  
Grove road just east of the Rock  
County Sugar company plant late  
Thursday afternoon, doing about \$20  
to \$30 damage to each machine.

Dr. Cleophas was returning in  
Milwaukee and was headed west  
while the judge's car was stalled with  
the engine overheated. He stopped to  
attend a city hall picnic at Delavan  
lately. Judge Mustek said he was  
crowded so far off toward a ditch by  
the Cleophas car that his rear wheel s-  
kidded in the loose gravel, swerving  
it into collision with the machine  
going the opposite direction. No one  
was hurt.

The party was delayed in reaching  
the picnic but arrived in time for  
supper served at the assembly  
grounds. Swimming and dancing  
were diversions of the evening.

## INJURED WORKERS RELATE SUFFERING

Claimants for Compensation  
Tell of Disabilities Result-  
ing from Accidents.

Employees claiming compensation  
for injuries of various kinds suffered  
in course of employment testified in  
the case of the Janesville district  
in hearings conducted by the  
state industrial commission. While  
most of the cases all claimed  
against the employers, the real de-  
fendants are the insurance compa-  
nies in which the firms hold compensa-  
tion policies.

Among the cases to be heard Fri-  
day were:

Louis Iverson vs. Du Pont Chem-  
ical Company, the result of an acci-  
dent from which he was disabled  
when he fell from a scaffold.

George Thomas Husen vs. James-  
ville Hall Milk Company for hernia  
June 5, 1923.

Ben Christopher vs. A. A. Rus-  
sell Garage, for injuries suffered Jan.  
11, 1923, when Jack under a car  
slipped, breaking Christopher's right  
leg above the ankle.

John Zellner vs. Chevrolet Motor  
Company for a fractured knee cap  
caused by a piece of iron which  
had struck him in the face.

Oscar Simonson vs. Rock River  
Woolen Mills, for acute retro colitis  
alleged to have been caused by too  
much over-time work, irregular meals  
and over-exertion.

The following cases were on Thurs-  
day afternoon calendar: Walter  
Dowd, a carpenter, who was  
injured when he fell from a scaffold  
while working on a house.

John Zellner vs. Chevrolet Motor  
Company for a fractured knee cap  
caused by a piece of iron which  
had struck him in the face.

Mr. and Mrs. Louis Beard and  
son, Mr. and Mrs. Lawrence, and  
Mrs. Irene Markman, Janesville, sis-  
ters, and Charles Davis, Janes-  
ville, a brother.

On account of M. O. Mount's ab-  
sence, the case of G. E. Ward vs. Wor-  
den-Alien company, and Harry F.  
Jones was continued. It also appeared  
that the following case would go over  
for a later hearing: Ivan Vollenberg  
vs. Vicksburg Laundry, for eye  
trouble suffered last August.

# TOURIST CAMP IN NEED OF CLEAN-UP

Daily Cleaning by City Forces Will be Recommended to Councilmen.

Daily cleaning of the tourist camp in North Washington street will be recommended by the city health department to the council at their regular meeting next Monday night, Dr. L. J. Woodward, city sanitary inspector, said Friday.

Although upon motion of Councilman Mrs. Emma J. Manning a resolution ordering weekly cleanings was passed at the last meeting of the body, conditions have made it necessary that the grounds be gone over daily.

Carelessness of both tourists and local people using the grounds, has resulted in the present condition, according to Dr. Woodward, and it is impossible to keep them in good shape with only weekly cleanings. It was reported that several tourists parties after inspecting the grounds this week, refused to camp and motored to Beloit, using the grounds there for the night.

"A tourist camp," said Dr. Woodward, "can be made either an asset or detriment to a city. The present condition of the camp is deplorable and some action must be taken immediately to put it in better condition for travelers. While the equipment is in fair shape, I believe that additional paper and garbage containers should be added."

With the camp in bad condition this week, policemen have directed some tourists to Riverside park to camp.

4,750 in U. W.  
Summer School,  
Sets New Record

Madison sees few student activities during the summer, in spite of the fact that summer sessions at the university are growing each year, and this summer there are more than 2,200 enrolled in the college of education. The reason for the lack of activity lies in the fact that students in the school are either older people who care less about the activities of younger students, while the younger ones there are studying for a special goal, perhaps to make up lost work, or to advance themselves in order to finish the university course as soon as possible. These people have little time for sports and club activities.

With the addition of 7,000 new students at the Camp Randall stadium last year, Wisconsin-Minnesota football game will probably be witnessed by as many as 36,000 people. Only 25,000 could gain admission last year.

Among those enrolled at summer sessions are 25 teams of girls and women of high schools and colleges; 205 soldiers, bonus men, less than last year's number, as many have completed the work they receive free; and 411 studying art. The total summer school enrollment is 4,750.

"A tourist camp," said Dr. Woodward, "can be made either an asset or detriment to a city. The present condition of the camp is deplorable and some action must be taken immediately to put it in better condition for travelers. While the equipment is in fair shape, I believe that additional paper and garbage containers should be added."

With the camp in bad condition this week, policemen have directed some tourists to Riverside park to camp.

## RE-ELECT HEADS OF CHURCH SOCIETIES

United Presbyterians Close Two Day Convention at Rock Prairie.

Attended by 70 delegates and visitors from other Wisconsin congregations and marked by splendid speeches and enthusiasm for the future, the 24th annual convention of the Young People's Christian Union and the Wisconsin Missionary section of the Wisconsin Presbytery came to a close here Thursday night at the Rock Prairie United Presbyterian church.

Mrs. V. G. Fritts, West Allis was re-elected president of the women's missionary society and Arthur Richards, Arlington, was elected head of the Young People's society, succeeding John McFay, Rock Prairie.

Other officers of the missionary society are: Mrs. J. C. Mann, Tempe, first vice-president; Miss Mary Hutchinson, Lodi, re-elected, second vice-president; Mrs. Frank Godfrey, Jamesville, secretary; Miss Sadie Hadden, Rock Prairie, treasurer; and the following were re-elected: Mrs. P. A. McKenna, Milwaukee, thank offering; Mrs. E. B. Shanks, Portage, junior; Mrs. George Stephenson, West Allis, tem-

perance; Mrs. John Hamilton, Portage, young women; Mrs. George McKenna, Pewaukee, literature; and Mrs. George Austin, Jamesville, bibles reading.

Award Presbyterial Banquet.

Laurel Stewart, West Allis, is the first vice-president of the Young People's society and Robert Barlass, Rock Prairie, second vice-president; Miss Ruth Rankin, Pewaukee; and Chauncey Guthrie, Waupasha, were re-elected secretary and treasurer.

Rock Prairie was awarded the Presbyterian banner for the most effective junior missionary work and West Allis the Y. P. C. U. banner. Miss Helen Burkett and Miss Christiana McFay, Rock Prairie, were the heads of the Gideon society.

At the junior society program Gordon Wilson gave two recitations and a play "A Bag of Wishes" and a participant in costume, "Waiting for the Doctor," was given.

Arlington, a rural church near Lodi, was the choice for the 1925 meeting.

**A Notable Event for Women of America**

There was something very happy about the se-  
lection of Seneca Falls, N. Y., in itself only a typ-  
ical little industrial city of the Empire state, for  
the convention of the National Woman's party.

In that city, 75 years ago, was held the first Wom-  
an's Rights convention. In such a village or city  
the old halls and landmarks are well preserved,  
so that the meeting of the Woman's party will  
be held in the same hall in which Elizabeth  
Cady Stanton, Susan B. Anthony and Amelia  
Bloomer led the forces which 72 years later were  
to see the fruition of labors in the passage of  
the nineteenth amendment to the national con-  
stitution.

One of these names is in daily use in all house-  
holds where there are girls in the family. Amelia  
Bloomer. Among other things which she declared  
necessary for the emancipation of woman was a change in the style of dress and she in-  
augurated the wearing of garment given the  
name of bloomers—a name which has stuck ever  
since. Could Miss Amelia see the tourists and  
hikers nowadays wearing these articles of cloth-  
ing without comment by any such rabid mul-  
titude as greeted the early productions, she  
would add a personal victory to that of suffrage  
itself.

Nor should this early convention be passed  
by without mention of that other noble woman,  
Lucretia Mott. One more act of historic signifi-  
cance will be performed during the meeting on  
July 22. A visit will be made to Rochester, N.  
Y., where the members of the 1923 convention  
will pay tribute in a service at the grave of that  
gentle woman, Susan B. Anthony. No militant  
suffragette was she. No bricks were thrown  
through windows by her. She was of the finest  
fibre, the highest type of American womanhood.  
No fear either, had she, for in her lifetime she  
faced from the platform hostile mobs of men and  
women, in her advocacy of freedom for slaves as  
well as equal rights for the women of America.  
It was a persistent patience with which she worked;  
a brilliant mind attuned to no irrationalism. She  
had no eccentricities of genius and asked for no  
palliation on account of her sex in the battle she  
was making for a goal achieved after her death.  
So it is fitting that she, Susan B. Anthony, shall  
be remembered with highest éclat and de-  
served tribute on this 75th anniversary of the  
first session of the seekers after right.

We know now what these hard boiled persons  
live on. A Louisville, Ky., physician says we look  
like what we eat.

**The New Turk.**

The Turkish treaty as told in the Associated  
Press cable to the Gazette has left the Moslem  
far and ahead of anything of which the Moslem  
nation could have dreamed at the close of the  
war in 1918. Turkey has ditched all her obliga-  
tions, moral, political or financial. She may pay  
her debts if she so desires and then only probably  
because she will seek additional credits and pay  
the old debt in order to make a new one. As for  
the capitulations, they have been ditched. Foreign  
warships must leave the Dardanelles. Greece  
is left where it has been placed by the end of  
the war in Angora and the disastrous retreat of  
Prince Andrew. Greed and jealousy have actu-  
ated the nations involved. England and France  
have been so fearful that the other would get  
the advantage that they have neither been willing  
to keep the Turk where he was placed by the  
close of the war or to restrict his activities.  
Constantinople was, in the final analysis, the same  
bone of difficulty that it was in 1877 when Russia,  
winner of the war with Turkey, was kept from  
reaping the fruit of victory by the diplomacy of Beaconsfield. The Turk is tired of fighting.  
He is a much-reformed Turk in domestic  
as well as in his view of foreign affairs. If the  
natural resources of his geographically lessened  
republic are developed he may get along with  
Europe. There is nothing like many railroads  
and organized industry, moving picture shows and  
electric lights, to take the desire for nomadic  
massacre out of a nation. The Turk may profit  
by these civilizing agents.

It might occur to Germany that if the sabotage  
was stopped in the Ruhr there would be less  
friction with France.

Congressman Edward Voigt received more attention  
from the republican Minneapolis Tribune  
in reporting a speech of his in favor of the  
farmer-labor candidate, than he perhaps ever  
did in his home district. Voigt is in favor of  
Magnus Johnson for United States senator and the  
chief reason we gather from his utterances, is  
that Magnus will not wear a dress suit at the  
national capitol. There are others in America  
who would not wear dress suits at any time  
but it seems that clothing neither makes the man  
nor the woman. Voigt says he is a republican.  
In money there are two kinds of silver dollars.  
One is the hundred cent American dollar and then

## MAIL BY PONY EXPRESS

BY FREDERIC J. HASKIN

Washington.—On April 3, 1860, a lad left St.  
Joseph, Missouri, astride a black pony, and another  
left Sacramento, California, on a white pony, inaugurate-  
ting the mail service of the famous Pony Express.

On September 9 of this year the service will be  
instituted again for just one spectacular trip  
which is to be a feature of a big celebration com-  
memorating the seventy-third anniversary of  
California's admission to the Union, and the seven-  
ty-fifth anniversary of the discovery of gold in  
that state.

As nearly as possible conditions will be estab-  
lished that are identical with those of the '60s  
and an effort will be made to duplicate or beat  
the best time ever made. Of course the hard-  
ships of the trip will be nothing comparable with  
what the lion-hearted young men of the first fast  
overland mail endured. There will be no cruel,  
bloodthirsty Indians to evade and the riders will  
not have to find their way across trackless desert  
and prairie as in the days when there was not a  
post office between Missouri and California.

In fact, with nothing to bother or worry them  
save making speed the modern pony riders, better  
mounted and better equipped in every way  
than their predecessors, may be able to set a new  
record for the two thousand miles.

Human nature will not change. In any future  
great national trial compared with men of  
this we shall have as weak and as strong, as silly  
and as wise, as bad and as good. . . . Gold is  
good in its place, but living, brave, patriotic men  
are better than gold. —ABRAHAM LINCOLN.

The scheduled time for the Pony Express was  
eight days from St. Joseph to Sacramento and two  
days more to San Francisco. The best time ever  
made was seven days and seventeen hours when  
copies of President Lincoln's message were being  
transported. But the even more splendid record  
of the service was its monumental accomplishment  
of always getting the mail through on  
schedule and never losing but one pouch, and that  
one was carried off by the Indians after they had  
killed the rider. Also the service never had a  
man who disgraced it by theft, and many of the men  
lost their lives along the long, long trail.

Before the day of the Pony Express the direct  
service to the Pacific Coast was by stage from  
St. Louis and the time required for the trip was  
twenty-three days. Passengers were charged  
\$100 gold for transportation and letters were car-  
ried at the rate of ten cents per half ounce. The  
rate by Pony Express was \$5 per letter, and let-  
ters had to be written on the thinnest of paper.  
Each rider had two mail pouches that never  
weighed more than 20 pounds each, and no rider  
was employed who weighed over 156 pounds.

## JUST FOLKS

BY EDGAR A. GUEST

**THE MORNINGS OF CHILDHOOD**  
In the days of long ago,  
Young folks were ours before us,  
And the hills were good to climb.  
We were brave and we were strong,  
Neither pain nor grief nor wrong  
Had left one blot of sorrow.  
On the register of time,  
It was sweet to wake at morning  
For the day was always new,  
And the past was left behind us  
With the night we'd slumbered through.

In the days of long ago  
We could easily come and go,  
We could race the trout or perch  
Or go trudging down the lane,  
Without care left or right.  
Light of heart from dawn till night.  
For we had not met with failure,  
Had not heard the voice of gain:  
Then no soon or censure waited  
At the ending of our play.  
And our little wrongs at nighttime  
Were all gently washed away.

Now men look on us as wise  
And there's sorrow in our eyes,  
Our chinks the lines of age,  
Have been well-traced,  
Much we've suffered, much we've learned,  
And our souls are seared and burned  
And the memory of our failings  
Is not easily erased.  
Now the sunny mornings call us  
As they called us long ago,  
But we wake to worldly wisdom  
And the memory of woe.

To the ribbons of the past  
We are tied and tethered fast,  
To life's sorrows and griefs and burdens  
We're slaves to yesterday,  
No, not children, now, but men,  
Morning calls us back again  
To the tasks we've left unfinished  
And the tasks which lie before.  
We have looked on pain and felt it,  
We have worshipped fame and gold,  
And we find each glad new morning  
Has been tainted by the old.

## Who's Who Today

RAYMOND POINCARÉ.

Partisan politics, which are absorbing the at-  
tention of the French parliament more and  
more as the elections of next year come near-  
er, may drive Premier Poincaré from power in  
the opinion of some political prophets.

The premier is tired, physically and mentally. He has  
aged considerably under the tremendous load he has carried  
during the past eighteen months, and is thoroughly disgusted by friends say-  
with the intrigues that are occupying the attention of  
parliamentary leaders at a time when their entire efforts  
ought to be centered on the solution of the reparations  
question and the extrication of France from her critical  
financial situation.

Born in Bar-le-Duc August  
20, 1858, Raymond Poincaré  
was ten years old when a  
Prussian army marched past his father's door-  
step on the way to Paris.

Since he first entered the chamber of depu-  
ties Poincaré's utterances have revolved a sin-  
gleness of purpose. He thinks and talks only  
of France. Humanity and world peace are ab-  
stract phrases to him. He brushes them aside.  
Nothing like France is to be considered when  
her own interests are at stake.

## HISTORY OF TODAY

TODAY'S EVENTS.

Today, Friday the thirteenth, is regarded by  
many as an unlucky day.

But, on the theory that "two negatives make  
an affirmative," it should be a day of extreme  
good luck.

New Yorkers will recall today as the six-  
tieth anniversary of the draft riots, which formed  
one of the bloodiest chapters in the history of the  
city.

The annual summer conference for Women's  
Foreign Missionary societies will be opened at  
East Northfield, Mass., today, and continued  
until July 21.

Gen. Gouraud, the famous French com-  
mander of its forces, the Rubicon Division Veter-  
ans' association will open its annual reunion today  
at Indianapolis.

TODAY'S ANNIVERSARIES.

1866—The Express Caravans departed from Mex-  
ico City to seek further oil from Na-  
tional Oil Co.

1873—Don Carlos entered Spain, "to save the country."

1890—John C. Fremont, famous soldier-explorer,  
died in New York City. Born in Savannah,  
Ga., Jan. 21, 1813.

1900—Bombardment of Tientsin by the allies, who  
were largely killed and wounded in 15 hours  
fighting.

ONE YEAR AGO TODAY.

Yap treaty ratifications exchanged by United  
States and Japan.

U.S. Army's 1st Cavalry ordered in readiness for  
rail strike duty in Texas.

TODAY'S BIRTHDAYS.

Mary E. Wooley, president of Mt. Holyoke col-  
lege, born at South Norwalk, Conn., 60 years ago  
today.

A Milwaukee man insists that he heard the  
voice of his dead wife talking to him over the  
telephone. You simply can't stop 'em.

Houdini can make an elephant vanish. If the  
present administration isn't careful, it may do  
the same thing.

One of our readers just returned from Rus-  
sia, where he felt perfectly at home over there,  
when traveling. When the brakeman called out  
the stations, he couldn't understand them any  
more than he does over here.

## LOOKING BACKWARD

FORTY YEARS AGO

July 13, 1883.—The excursion to Chicago next  
week will be one of the largest ever going from  
this city, and the class of people going makes  
it a social event of importance.—The new cotton  
factory at Monterey is rapidly nearing comple-  
tion.—A party from this city has secured  
tent and will camp out at Lake Delavan next  
week.

THIRTY YEARS AGO

July 13, 1893.—Little Frank Wilder was  
drowned in the race-way at Monterey dam this  
morning, the second drowning there of the sea-  
son. He was swimming when he ventured out  
in deep water.—W. H. Meloon is moving the  
old house built by his father more than 50 years  
ago at Jackson and Pleasant streets, and will  
put up a new home there.

TWENTY YEARS AGO

July 13, 1903.—John E. Myers has turned over  
his lease to the Myers house to Col. Garrison  
and Mr. Deb, his partner, b. b. of Chicago, who  
will arrive here this week.—Two diphtheria  
deaths have occurred here this year, both being  
near the city limits.—Edward Stark of the Wis-  
consin Beet Sugar company is here supervising  
the beet crop.

TEN YEARS AGO

July 13, 1913.—Bid for the new Milwaukee  
street bridge to replace the one destroyed by  
fire, will be received by the board of public  
works tomorrow.—Through the efforts of Sec-  
retary Frank Lane of the Commercial club,  
freight reductions of considerable size have been  
secured for Janesville manufacturers.

Make me to understand the way  
of thy precepts; so shall I talk of  
thy wondrous works.—Psalm 119:27.

## Personal Health Service

By WILLIAM BRADY, M. D.

*Noted Physician and Author*

### THE FAID SCHOLAR

Were it not for the annual vacation, a custom curiously surviving, no doubt our pedagogues would solve the crowding problem by killing off a large share of the pupils. For vacation time is when the schoolboy and schoolgirl recover somewhat, the strength and health lost at school.

The recessions and restlessness of the home environment still continue, however, the home environment seems to enjoy the approval of the school authorities, for there is no homework required or permitted.

Meantime not sparing on this point, the parents of the scholars upon the proper conduct of the school, and the teachers of the pupils, should be more considerate of the welfare of their children.

It is an important factor in the causation of malnutrition, from which at least one-third of all school children in the country suffer, irrespective of the poverty or wealth of parents.

And the homework evils, along with the hundred minor planets which revolve about the sun between Mars and Jupiter, has given astronomers much trouble since its discovery a dozen years ago. Although a considerable amount of computation has been done on the asteroid's orbit, errors were made many years ago which resulted in the asteroid's becoming "lost" for 12 years.

Several years ago it was rediscovered at some distance from the point where calculations predicted it should be. Working with data resulting from observations of Aurora since her rediscovery, University of California professor Dr. A. O. Lauscher has been able to detect important errors made by German astronomers years ago.

The problem, local astronomers state, is one of considerable difficulty because of the nearness of the asteroid to Jupiter and Saturn, two mighty bodies which are continually pulling Aurora out of the path laid down for it by the sun. It is to the calculation of the effect of these disturbances that the work is now being directed by Professor Lauscher, and months of mathematical work will be required before the problem of Aurora's motion is solved, the professor states.

Map-making. In drawing maps, is it a mystery to you how to make a map? Is it harmful to your eyes to make a map?

Answer.—Not if you have no un-  
conscious desire to distract the eye.

Public versus Private Hospital.

Answer.—It tells me whether a consumptive  
stands as good a chance of getting well in a public (municipal) sanatorium  
as in a private hospital.

**LATEST MARKET REPORT****GRAIN**

**Chicago Review.** Chicago—Wheat moved upward a little in price during the early dealings, influenced chiefly by some falling off in the volume of hedging sales and optimism in various quarters as to an settlement of the wheat market. It had a solid-out appearance and even ardent bears seemed disposed to show caution in view of recent declines. The market, it is true, was not strong, but reduced further to strengthen the market according to the opinion of some traders. Opening quotations, which varied from 1 cent to 10 cents per bushel, were followed by a moderate general advance, with July and September both rising about \$1.00.

Subsequently black rust talk had a more or less bullish effect, but in the final dealings prices receded a bit, according to estimates, the wheat crop being the largest on record, were over 100,000,000 bushels in excess of last year. The close was unsettled, 1 cent net higher.

Complaints of hot dry weather in Oklahoma and Texas gave strength to the corn market. After opening at the decline to a like advantage, some gains were recorded a material advance all around.

July delivery nearly equaled the season's high price record. The close was 1 cent @ 2¢ net advance.

Oats were upheld by the action of other cereals, but kept within limits, advancing to 1 cent off. Sept. 31 @ 34¢ ac and later making slight general gains.

Lower quotations weakened the provision market.

the surtax," governor Blaine said, "is only an invitation for the imposition of further taxes upon the people of the state. I have constantly, in season and out of season, urged the adoption of a taxation policy that will equalize taxes. It has been the pledge of the dominant party to equalize taxes, and all my communications have followed closely that pledge. That pledge has been violated, and the bill in no manner meets the contract made with the people through such pledge."

# SENATOR RALSTON SEEMS CERTAIN OF PLACE ON TICKET

By DAVID LAWRENCE

Copyright 1923, by Janesville Daily

All Smith when the latter visited French Lick Springs recently. How could Mr. Taggart show more fondness for Al Smith when he had a favorite son to boost? It isn't that Tom Taggart is "dry." He feels that as long as Indiana has a chance to win the nomination for the presidency it is up to him to play the dry side.

**The Few Enemies**

Senator Ralston's strength is his lack of enemies. He has not been identified prominently with any of the factions in the party but has simply been a good democrat. Any man who can defeat former Senator Albert Beveridge is entitled to consideration in the democratic ranks. Certainly if Mr. Beveridge had won he would have been a popular contender in the presidential race. If he gets into the initiative will not have been his in any sense.

By some Mr. Ralston is regarded as too aged to go to the White House. He is 66 years old. His friends are saying, however, that a "giant old man" at this time would be a salutary thing to America. M. Clemenceau died his 80th year after 60 years of age. Mr. Ralston's record in Indiana is an asset which the democrats will not be inclined to overlook. Certainly if he does not win a place as vice president he would be a likely choice for vice-president.

**Possibility for Vice President**

Indiana has had a record of contributing vice presidential candidates and vice presidents. Woodrow Wilson running mate in both terms was General Marshall of Indiana. Former Vice President Fairbanks was a native of Indiana.

Being in the middle west, where the doubtful territory is both parties have had an eye on Indiana. Senator Ralston would be satisfactory to all elements of the democratic party as second man. He has taken his seat in the senate but his record as governor is recent enough to stand him in good stead. There has been no diminution in his popularity since he was elected last autumn. He is likely to afford the public an opportunity to appraise him in the coming session of congress this year. If he can carry Indiana he would strengthen the democratic national campaign immensely. He seems certain at this writing to be on the ticket.

**Not Self Seeking**

Senator Ralston is not a spectacular individual but is able to cover course throughout his state administration. His popularity in Indiana

Mr. Ralston is "dry." That's why Tom Taggart, the democratic boss of Indiana, did not warm up to Governor

Indiana.

**FIRST PLAYGROUND CONCERT POPULAR**

The first school band concert of the series to be given at the playgrounds of the city were heard at the Adams and Jefferson schools yesterday afternoon. The public was invited and a crowd of 150 children and parents attended each performance.

The high school band played several selections and there were baseball games between the Midgets and Juniors of the Jefferson, Douglas, and Webster schools. Thursday was visiting day at the city playgrounds and the Jefferson school students called the children of the Webster and Douglas schools.

The band consisted of about 35 pieces. The music produced by the young amateurs was excellent, due largely to the untiring efforts of Ralph C. Jack, the director. Concerts at the school playgrounds will follow frequently after this, the next ones being July 20, 27, and possibly Aug. 3.

There will be the same number of concerts during the summer and there will be weeks set aside as visiting weeks in which each school will be the host of other schools for an afternoon.

The five giant strides which have

just arrived are being erected under the supervision of V. E. Klonitz, director of playgrounds and recreation.

They are already up and the others will be set up in the near future. They promise to be a popular piece of the playground equipment, consisting of a single tall pole from
